SKILLS SUMMARY

- Skills** : SQL, **DSA**, **OS**, **Web development**, **SDLC**, **Content Writing** ,**OOPS Concept**, Numpy, pandas,MySQL, MongoDB
- Languages** : **C++**, **C**, **HTML**, **CSS**, **JavaScript**, PHP, **Java**, **python**,**SQL**
- Frameworks** : **Bootstrap**, **tailwind CSS**, **React**
- Dev Tools** : **Visual Studio Code**, Git, **Github** , **Jupyter Notebook**, intelliJ IDEA, PyCharm.
- Soft Skills** : **Problem Solving**, **leadership**, teamwork, decision making, Analytical skills, **Content Writing**.

EXPERIENCE

- Coding Trainer** April 2024 – Present
Full-time *Kodu - Powered By Dhurina, Sikar, Rajasthan*
- Full-Stack Development Proficiency:** Equipped learners with essential frontend skills, including HTML, CSS, and JavaScript frameworks, alongside backend technologies such as Node.js and databases, enabling them to build robust and scalable web applications.
 - Project-Based Learning:**Led students through real-world projects, enabling them to develop and deploy applications using both frontend and backend technologies.
- Software Trainer** Nov 2023 – April 2024
Full Time *Miracle IT Career Academy,Bhopal*
- Comprehensive Language Instruction:** Developed and delivered comprehensive training modules in C, C++, Java, Python, JavaScript, and frontend technologies, ensuring a thorough understanding among learners.
 - Hands-On Learning Approach:** Implemented a hands-on learning approach with practical coding exercises and projects to enhance students' programming skills and problem-solving abilities.
- Software Developer** July 2023 – Nov 2023
Full Time *Technoglobe, Jaipur, Rajasthan*
- Developed and implemented software solutions, focusing on enhancing user experience and optimizing performance.
 - Collaborated with cross-functional teams to deliver projects on time, with responsibilities including feature development and bug fixing.

PROJECTS

- Food Delivery App Project** *HTML, CSS, React, JSX, Tailwind, Git, Github* [Source Code](#)
- * **Utilized Swiggy Live API for real-time access to restaurant data, including menus, pricing, and availability.**
 - * Implemented features like:
 - Search and filter restaurants by cuisine, location, and ratings.
 - Browse menus and add items to a shopping cart.
 - Track order status with real-time updates.
- 30 Projects in 30 Days Challenge** *HTML, CSS, JavaScript, Git, GitHub* [Source Code](#)
- * **Developed 30 innovative and interactive projects within 30 days to strengthen web development skills.**
 - * Projects include a range of applications such as a Quiz App, Social Media Selector, Calendar, Counter App, and more, showcasing expertise in frontend development.
 - * Focused on responsive design, interactive functionality, and optimized performance using modern web technologies.
 - * Demonstrated strong problem-solving, time management, and creativity through consistent daily project completion.

EDUCATION

- Rustam Ji Institute of Technology** BSF Academy, tekanpur, Gwalior
Bachelor of Engineering in Computer Science CGPA : 8.52 *July 2018 – July 2022*
- BSF Senior Seconadary School** BSF Academy, tekanpur, Gwalior
Intermediate with PCM and Computer Science Percentage - 81.2 *July 2016 - 2018*

CERTIFICATIONS AND ACHIEVEMENTS

- Freecodecamp Certified : Javascript Algorithms and Data structure
- Google Certified: Foundation Of Cybersecurity
- Hackerrank : **Problem Solving(Intermediate) Certificate**
- University of Michigan : **Python for Everybody, Python Data Structures**
- Secured 27th Rank in Geeks Premier League(GPL 2023)**

VOLUNTEERING AND PUBLICATIONS

- NCC Volunteer** : 2 year of Volunteering Experience of **NCC**, served as **Senior under Officer**
- GeeksForgeeks** : Contributed 48+ Articles and Improved 2 Articles
